Soft Skills	Problem-Solving Skills , Teamwork and Collaboration, Critical Thinking , Customer Focus

EXPERIENCE

Software Development Engineer Mars Track Technologies PVT LTD	Mar 2023 - Present <i>Bengaluru, India</i>
---	---

- Designed and Developed 5+ user-friendly websites, using MERN stack, that increased user clicks and subsequently customer purchase by 50%.
- Led 2 responsive websites, achieving a 100% client satisfaction rate.
- Architected and implemented RESTful APIs using Node.js, connecting to MySQL SQLite databases.
- Fixed bugs from existing websites and implemented enhancements that improved functionality and efficiency by 50%.
- Guiding junior engineers on programming and software design tasks to enable timely delivery of products to customers.

PROJECTS

E-commerce. Built a responsive and user-friendly e-commerce platform using MERN stack (MongoDB, Express.js, React.js, Node.js) for efficient online sales.

Point of Sale (POS). Developed a user-friendly POS system using MERN stack to streamline in-store transactions and manage inventory.

Property Management. Led and involved in a responsive property management application using ReactJs, ExpressJs, NodeJs, SQL Server to automate tasks, facilitate communication, and optimize rental operations.

Dashboards and Approvals. Created interactive dashboards and implemented approval workflows using ReactJs, NextJs, ExpressJs, NodeJs, SQL Server for data visualization and efficient decision-making.

Costing Module. Developed a robust costing module using ReactJs, ExpressJs, NodeJs, SQL Server to calculate product/service costs, optimize pricing strategies, and improve profitability.

LEADERSHIP

- Spearheaded cross-functional teams to deliver high-impact projects on aggressive timelines, fostering a culture of innovation and rapid iteration.
